ABOUT THE DEPARTMENT

The Human Development Department established in the year 1965 and marching towards excellence in all stages of human life. Human Development is the study of how human beings develop physically, mentally, emotionally and socially within the context of the family and society. It offers an interdisciplinary approach to individual and family development across the lifespan. It covers the stages of lifespan from conception to old age to promote holistic development and face the challenges of day-to-day life. The course curriculum prepares graduates for professional careers related to working with infants, children, adolescents, adults, elderly and families in social and human service settings, all of which provide opportunities for student participation and learning. The department offers UG, PG, M.Phil and Ph.D programmes and also Value Added Course, Co- Curricular, Professional Certificate Course.

ABOUT IAHP

A national association for people working in schools and colleges catering to the mental health needs. As of 2019 December, IAHP has completed 13 years of service in the psychology community since its inception in November 2006. IAHP's workshops are organised in major cities across India from time to time. IAHP is playing vital part in conducting awareness seminar to promote various psychological therapies like talk therapy, expressive therapy.

About the Department

The Human Development Department established in the year 1965 and marching towards excellence in all stages of human life. Human Development is the study of how human beings develop physically, mentally, emotionally and socially within the context of the family and society. It offers an interdisciplinary approach to individual and family development across the lifespan. It covers the stages of lifespan from conception to old age to promote holistic development and face the challenges of day-to-day life. The course curriculum prepares graduates for professional careers related to working with infants, children, adolescents, adults, elderly and families in social and human service settings, all of which provide opportunities for student participation and learning. The department offers UG, PG, and Ph.D programmes and also Value Added Course, Co- Curricular, Professional Certificate Course.

About the Department

The Human Development Department established in the year 1965 and marching towards excellence in all stages of human life. Human Development is the study of how human beings develop physically, mentally, emotionally and socially within the context of the family and society. It offers an interdisciplinary approach to individual and family development across the lifespan. It covers the stages of lifespan from conception to old age to promote holistic development and face the challenges of day-to-day life. The course curriculum prepares graduates for professional careers related to working with infants, children, adolescents, adults, elderly and families in social and human service settings, all of which provide opportunities for student participation and learning. The department offers UG, PG, M.Phil and Ph.D programmes and also Value Added Course, Co- Curricular, Professional Certificate Course.

About the course

Preschool Teaching consists of activities and/or experiences that are intended to effect developmental changes in children prior to their entry into elementary school. Preschool teaching is intended to enable the students to understand the objectives and functions of ECE centres & to develop skills to work effectively in a variety of early childhood settings. Preschool teachers are those who specialize in working with young children, from toddlers to children of up to six years of age. Their role consists mostly on providing nursing and instruction in the most basic aspects of formal education. They must create a positive environment and detect behavioural or cognitive difficulties in their students in order to apply the necessary corrections or teaching methods. The most common place for Early Childhood Educators to work in are kindergartens and daycare centres. Early Childhood Educators may also work in community centres or even for companies that offer daycare services to their employers. The course is designed to make the students acquire necessary skills to be a successful early childhood educators.

CNP Early Childhood Care & Education MOOC

Early childhood is a period that covers the first six years of a life of a child, wherein their brain grows at an extraordinary speed. The synaptic connections to the brain are made by the experiences that a child draws from his/her environment. Hence the environment of every child should be enriched with powerful experiences to lay a stronger foundation and thereby fostering the holistic lifelong development.

Early childhood care and education is a multidisciplinary field that relies on insights from several fields like human development, psychology, sociology, and medicine, particularly neuroscience.

Having said the importance of the lifespan stage - the early childhood and the magnitude of the care and education components of it, this credit course on Early childhood care and education serves as a curriculum framework for children from birth to six years. It aims to provide information for the adults to plan and provide enjoyable learning experiences so that every child grows and develops as a competent and confident learner. The curriculum describes the theoretical underpinnings of learning and development of children at their early years and offers strategies and suggestions of how this learning can be nurtured. Also it intends to provide guidelines on supporting children's learning through partnership with parents, interaction with others, play and assessment.

The course provides a platform for the learner to explore and reflect the above said aspects by using multiple pedagogical techniques such as assignments, discussions, designing portfolio and first- hand experience as an intern, thereby encouraging you to be an effective ECCE provider.

School Counselling

By Dr. Ramya Bhaskar | Avinashilingam Institute for Home Science and Higher Education for Women, Coimbatore

Learners enrolled: 1565

Have you seen a child being too aggressive – hitting and hurting other children, destroying things etc..?

Have you seen a boy/girl being too timid, withdrawn, aloof, isolated?

Have you seen an adolescent high school student being reckless, indulge in risk behaviours – smoking, drug and alcohol abuse?

All of us have seen and have wondered why? Why the children are like this?

How to set right

What should be done to avoid these problem behaviours? How to identify and address these

(<https://swayam.gov.in/>)

(https://swayam.gov.in/nc_details/CEC)

The students need not be exceptional to encounter problems in school. They face a diverse array of problems and challenges as they progress through school years which manifests itself through these behaviors. We know that the children are an asset for a country since they are the future nation builders and their health and wellbeing always remains as a primary concern. Children of elementary school, middle school and high school spend the active part of their day at school and hence, school plays a very important role in moulding the personality which endures through thoughts, feelings and behaviours of the students.
