Report on

AMOS training workshop

Organized by R&D Cell

7.8.2023

Venue : Gallery

Resource Person: Dr Gandhimathi S

Professor, Deputy Dean, Humanities

**Avinashilingam Institute for Home Science and Higher Education for Women,
Coimbatore**

A hand on workshop on AMOS SPSS training was organized by the Research and Development Cell for Research Scholars and interested faculty on 7.8.2023 in the Gallery of the Institute. The Resource person was Prof.S Gandhimathi, Deputy Dean, School of Humanities.

Introduction:

On the 7th of August 2023, the Research and Development (R&D) Cell of our institution organized an informative and engaging workshop on AMOS. The event was held at the Gallery, and the workshop was facilitated by Dr. Gandhimathi S, a expert in the field of humanities and an esteemed professor at our institution.

Objective:

The primary objective of the workshop was to provide research scholars with practical insights into the application of Advanced Structural Equation Modeling (AMOS) in their research projects. AMOS is a widely used statistical software for analyzing complex relationships in research data, and this workshop aimed to equip participants with the necessary knowledge and skills to effectively utilize this tool in their research endeavors.

Workshop Highlights:

Inaugural Address: The workshop commenced with an inaugural address by Dr.P.Lalitha, Director R&D. She emphasized the importance of AMOS in contemporary research and its relevance across various academic disciplines.

Theoretical Foundation: Dr. Gandhimathi S provided a comprehensive overview of the theoretical underpinnings of structural equation modeling, elucidating its significance in modeling complex relationships.

Hands-on Training: Participants had the opportunity to engage in hands-on exercises with AMOS software. Dr. Gandhimathi S guided them through the software interface, demonstrating how to build and test models.

Case Studies: Real-world case studies were presented to illustrate the practical application of AMOS in different research contexts. Participants were encouraged to apply their learning to these scenarios.

Interactive Q&A: Throughout the workshop, participants actively engaged in discussions and posed questions to Dr. Gandhimathi S. Her responses provided valuable insights and clarification on various AMOS-related queries.

Participant Feedback:

The workshop received positive feedback from the research scholars who attended. They expressed their gratitude for the practical exposure to AMOS and the clarity of Dr. Gandhimathi S's explanations. Many participants commented that the hands-on exercises and case studies were particularly beneficial in enhancing their understanding of this complex statistical tool.

Conclusion:

The AMOS Training Workshop organized by the R&D Cell on August 7, 2023, was a resounding success. It provided research scholars with valuable knowledge and practical skills in Advanced Structural Equation Modeling, empowering them to conduct more sophisticated and accurate data analysis for their research projects. The event was made possible by the expertise and dedication of Dr. Gandhimathi S, whose guidance and insights were greatly appreciated by all participants.

We extend our sincere thanks to Dr. Gandhimathi S and the R&D Cell for their efforts in organizing this enriching workshop, which undoubtedly contributes to the research excellence of our institution. We acknowledge the support and permission of authorities for the conduct of this workshop.
