"Quality Research and UGC CARE Journals"

17th and 18th May 2022

Venue : Thiruchitrambalam Auditorium

Organized by DORD and IQAC

“Quality Research and UGC CARE Journals”

In order to promote the research acumen of the scholars and faculty members a Workshop on “Quality Research and UGC CARE Journals” was organized by the Avinashilingam Institute for Home Science and Higher Education for Women. On 17.05.2022, the Inaugural function of the event was held. The first day of the session on 17.05.2022 was exclusively for the faculty members. The students from the Department of Music rendered the prayer song during the Inaugural.

Invocation

Dr. U. Jerinabi, IQAC- Coordinator, welcomed the august gathering. The importance of research quality enhancement and the significance of such academic discourses were highlighted and a positive note was set for the session.

Dr. U. Jerinabi, IQAC- Coordinator presents the Welcome Address

Prof. S.P. Thyagarajan, Chancellor, Avinashilingam Institute for Home Science and Higher Education for women delivered the Presidential address (through online mode). The importance of identifying the quality publication and the significance of bibliometrics were highlighted in the address. He emphasized on the importance of mentoring the scholars in the area of trans-disciplinary, inter-disciplinary and multi-disciplinary research, as they are the backbone of research in any institution. By conveying optimistic ideas he motivated the faculty to take up new initiatives and have a positive outlook towards research.

**Chancellor Prof. S.P. Thyagarajan, delivers the Presidential
address online**

Despite the testing times, there is always hope for good research, hence definitely things will work out. He concluded the presidential address by narrating an incident from the life of Ramakrishna Paramahansa and Swami Vivekananda. Ramakrishna Paramahansa requested his disciples to bring a handful of grain from a household without the knowledge of its inhabitants, they next day when they assemble for the class. All the disciples except one brought the rice, Swami Vivekananda came empty handed. On enquiry he stated that it was easy to procure the rice without the knowledge of the inhabitants, but his inner conscious would never permit him to do the deed. Listening to one's inner conscience is vital, especially in terms of doing research.

Vice Chancellor Dr. Bharathi Harishankar delivers the special address

Vice Chancellor Dr. Bharathi Harishankar gave the special address wherein the prominent issues of “Quality Research and UGC CARE Journals” were highlighted. Recalling her experiences with research and publication she highlighted on the key aspects every researcher should bear in mind in the process of research. The difference between a topic, subject and discipline is to be clearly identified. Even a quick survey can result in the choice of the topic, while the topic becomes a subject when it works with certain ideas in a well-defined way. The subject becomes a discipline when there is visibility for the ideas covered by the subject area, and the emerging scope for research in the area. Through quality publications the research can be communicated to the larger audience and reach the public. By identifying the mechanics of the journal, the quality of the journal can be assessed.

Registrar Dr. S. Kowsalya greets the audience

Registrar Dr. S. Kowsalya greeted the audience, she emphasized on the importance of identifying the quality of the journals and focusing on quality

research and publications. She stated with pride that the institution has been successfully publishing the UGC CARE listed journal “The Journal of Nutrition and Dietetics”.

The Chief Guest of the event, Dr. Shubhada Nagarkar, Coordinator, Centre for Publication Ethics, Associate Professor, Department of Library and Information Science, Savitribai Phule Pune University, was honoured with a memento, as a token of appreciation.

Dr. Shubhada Nagarkar, Chief Guest of the event honoured with a Memento

Dr. Shubhada Nagarkar spoke on various aspects related to “**Quality Research and UGC CARE Journals**”, right from the day of its inception to the latest model and the future possibilities. The speaker highlighted on the five basic elements of research. The key aspects related to quality research publication such as the ethics, acknowledgment of the origin of ideas, depiction of true data in the research were discussed in detail.

Dr. Shubhada Nagarkar addressing the gathering

Largely, the lecture covered the major pitfalls a researcher should beware of, when venturing into the arena of research and publication. The major issues reported as unethical practices in this area includes aspects such as image manipulation, machine generated papers, false peer review process, research papers on sale and manipulating research materials.

Self plagiarism is also an unethical practice; the research paper should acknowledge all the sources used for the purpose of research. It is mandatory to provide due acknowledgement to the creators. The basic mantra of quality research is to stay true to the conscience and present authentic data.

The faculty members participate in the Workshop

Any quality work published would be acknowledged by the academic community, the merit of the paper would definitely be acknowledged by the experts in the area of the discipline. Hence she motivated the faculty to play an active role in identifying the quality journals and recommending them to the UGC CARE list, for consideration, as the opinion of the faculty in that particular discipline is of utmost value. She patiently answered to the several quires posted by the faculty members on various aspects related to UGC CARE and quality

publication. The session concluded with the question answer session. Dr. Arockia Maraichelvi, Assistant Coordinator, IQAC, proposed the vote of thanks.

18.5.2022 Workshop for Research Scholars

The second session of the workshop was held on 18.05.2022, it was exclusively for the Ph.D research scholars, both full-time and part-time Ph.D research scholars actively participated in the workshop.

Dr. P.Lalitha, Dean Research (i/c) welcomed the gathering. The importance of the workshop was highlighted and the scholars were motivated to benefit from the session.

Dr. P. Lalitha, Dean Research (i/c) welcomes the gathering

Vice Chancellor Dr. Bharathi Harishankar gave the special address wherein the significance of the workshop on "Quality Research and UGC CARE Journals" was emphasized. Understanding the varying concerns, separate sessions on "Quality Research and UGC CARE Journals" were organized for the scholars and faculty. She encouraged the research scholars to appreciate positive criticism, as it would enable quality enhancement in research.

It is vital to have an objective view towards the comments received from the experts and improve the performance. If the comments are viewed on a subjective note; it leads to loss of interest in research. Even if the research paper is rejected, the scholar should have the determination to rework and improvise the content and make it a scholarly work of high research value.

Vice Chancellor Dr. Bharathi Harishankar delivers the special address

Dr. Shubhada Nagarkar through her talk enhanced the understanding of the scholars on the prominent publication protocols. She emphasized on placing value on hard work and not to take short cuts for easy publication. It is vital to follow ethics in research. Any research work should bear accountability and serve the society, through its positive impact.

Dr. Shubhada Nagarkar addressing the Ph.D Research Scholars

The idea of the “Invisible colleges” is gaining popularity, it happens to be a forum which helps the genuine researchers to gain recognition from the experts in the particular fields. The speaker assigned the task of identifying top ten quality research journals in their specific discipline of research. It helped the scholars to ponder on the methodology they have followed in their research progression.

The UGC CARE journals are meticulously chosen, and the list is dynamic. UGC CARE journals are listed based on various standardized protocols; hence the journals with quality and merit get acknowledged. The myriad aspects of the journal types, the various modes of journals publications such as open access, subscription based journals, were discussed in detail.

The speaker motivated the scholars to aim for quality publications in standard journals listed under SCOPUS, Web of Science, and UGC CARE. Even if the research paper is rejected or is sent with suggestions for revision, it is essential to have patience and rework. The speaker cited some of her experiences with the journals and publication process. She offered to answer

enquires of the participants and provided useful tips on identifying the quality research publications.

The researcher should always have the commitment to work and the humility to take criticism in the positive sense. If the researcher is wholeheartedly committed the hurdles can be converted to opportunities. Dr. K. Ramya, Assistant Professor from the Department of Business Administration proposed the Vote of Thanks for the session.

Workshop practice session

The participants were given small exercises during the workshop and pre/post workshop

A Google site with a practice session was shared to all participants prior to the workshop

The link for the site is

<https://sites.google.com/view/cpe-practice-session-identify/home>

The site has a pre and post-workshop questionnaire

It also has a pdf file that lists five journals. Faculty and research scholars were asked to work on it and find predatory journals.

The image shows a Google Form titled "Avinashlingam University- Post Workshop Questionnaire". The form has a header image showing rolled-up diplomas and a graduation cap. The text on the form states: "The survey is designed to analyze the awareness and knowledge of Ph.D. students and faculty members regarding Research and Publication Ethics and scientific writing. The survey is conducted by the Centre for Publication Ethics (CPE), SPPU Pune." Below this, there is a section for "Consent" which includes the following text: "The estimated time required for this survey is 8-10 minutes. Participation in this survey is completely voluntary and you may withdraw at any point of time. We assure you that your personal details will be kept confidential and the data from this survey will be used for research purpose only." and "By agreeing to participate in the survey, you also grant permission for the data generated from this survey to be used for research purpose and any publications on this topic." At the bottom of the form, there is a button that says "Pre-fill responses, then click 'Get link'".
